

One thing we all have in common is our daily need for fresh, clean drinking water. Although Windsorites are fortunate to have one of the world's largest sources of fresh water at their doorsteps, other communities are not so lucky.

As many cities and towns are running out of water or struggling to keep the water they do have clean, we must conserve, protect and manage our water to make sure that future generations can enjoy the Great Lakes and our healthy water source.

WINDSOR UTILITIES COMMISSION

Visit www.wuc.on.ca for valuable water conservation tips.

What Can I Do?

Visit www.enwin.com for
valuable energy conservation tips.

While energy resources in our region appear to be plentiful, our current style of living is placing too high of a demand on them! Now is the time to do our part to use our resources wisely and conserve to develop and maintain a clean, green environment.

Come join us at the events listed above to learn more about how **YOU** can make a difference.
